

INFORMATION ACCESS SYSTEMS, INC.

2009 Annual User Group Meeting

Wednesday October 21st, and Thursday October 22nd

Information Access Systems cordially invites you to attend our fourth annual user group meeting (there is no charge for this event). Join the staff at IAS for two days of pointed training split into two tracks – business and technology. Learn to optimize On-Base to suit the specific needs of your organization as well as to configure and utilize some of the most popular OnBase modules.

We've taken suggestions from previous years and believe that this year will be no exception in value offered through refresher courses, roundtable discussions, and guest speaker A.J. Hyland, CEO of Hyland Software.

TRAINING AGENDA

Day 1: Wednesday, October 21

Hyland Software Presents

AJ Hyland, CEO of Hyland Software will present on the ECM industry and the direction of Hyland Software.

OnBase Update

Joe Stever will present on new and upcoming features and functionality in OnBase 9.0 and 9.2.

OnBase Kiosks

Learn how the new OnBase kiosk can be used as an effective front end to constituents and customers..

The OnBase Client—Forgotten Treasures

Keep your end users up to date by ensuring they know how to navigate the OnBase Client effectively via tips from our experts.

Engineer's Roundtable

This large block of time is devoted to OnBase System Administrators. This session will include a roundtable discussion where you can ask our engineer's specific questions related to your enterprise!

Vendor Presentations

Hear from some IAS partners to find out what technologies are available to enhance your organization.

Day 2: Thursday, October 22

Network Scanning

This business track class will explore new technology which is used to simplify scanning and indexing into OnBase.

Agenda Automation and Document Composition

Learn about the exciting AA and Doc Comp modules and see how easy they are to configure first hand. Come prepared with technical questions and our engineer's will be pleased to answer them!

Education-Consulting-Maintenance

Three portions on this will focus on what you need to know, who can help you, and how to keep it working.

Doing More with Less

Everyone wants to know how, let us show you where OnBase fits in.

Automated Indexing

Impressive technology and solutions will be presented that will allow you to simplify any indexing process.

SharePoint Integration

It's back, and more in depth this time around. This is the hot topic you're waiting for!
