

DataBank Acquires Information Access Systems, Inc. of Florida

Two Leading providers of Enterprise Content Management solutions join forces to address the expanding needs of customers nationwide.

Beltsville, MD ([PRWEB](#)) November 02, 2011 -- DataBank IMX, LLC. announced today that it has acquired Information Access Systems, Inc. (IAS), headquartered in Orlando, Florida.

“The success of our acquisition strategy is to identify and acquire companies that can contribute to extending our leadership position in the [enterprise content management](#) industry” said Fred Zaeske, CEO of DataBank. “IAS adds tremendous talent to our leadership team, expands our [solutions capabilities](#), and extends our geographic coverage. We are fortunate to have David Godiksen, President of IAS and Kevin Gregory, Vice President and CTO, join DataBank as investors in our business. Along with their talented team; they will contribute significantly to our future success”

IAS is a leading Systems Integrator specializing in imaging, workflow, data capture and enterprise content management. Their experience spans a wide range of applications which include government, insurance, healthcare, and back office operations such as HR, AR and AP. IAS has distinguished themselves as a multi-year OnBase Platinum Reseller and a Hyland Software Diamond Support Partner.

“IAS has an outstanding management team including Jack Roberts, COO of IAS and former President of Cutting Edge Solutions (an IAS acquisition) and a veteran group of business analysts and project managers that will contribute substantially to DataBank,” states Chuck Bauer, President and COO of DataBank. “The combination of IAS with extensive industry experience for [business process automation](#) and [advanced data capture](#) and DataBank’s [nationwide document conversion capabilities](#) will enhance the solutions offering for clients of both companies.”

The IAS team will go to market as DataBank and be headquartered in Orlando which will serve as the headquarters for a new Southeastern region for DataBank. The Kansas City office will continue to be managed by the IAS Florida team.

“Our staff is very excited to join the DataBank family and we look forward to working together to combine and leverage our unique strengths across a larger organization,” said David Godiksen, President of IAS. “Existing customers of DataBank will benefit from our deep expertise and impressive track record in software as a service (SaaS), hosted, and on-premise ECM solutions, while IAS customers will benefit from an expanded solution offering around conversion services and application process outsourcing.”
