

## **AMTIS Inc. Improves Data Collection with Solution from Information Access Systems Inc.**

### **AMTIS Inc., a DOD and Federal agency solutions provider, has selected Information Access Systems for a document management project with the Department of Veterans Affairs**

ORLANDO, FL, May 7, 2009 – AMTIS Inc. has selected Information Access Systems, Inc., a leading Systems Integrator specializing in Imaging, Workflow, and Enterprise Content Management, to support awarded contracts at the Department of Veterans Affairs with an intelligent capture solution. Information Access Systems will provide the solution for electronically capturing, storing, and extracting valuable data from thousands of handwritten surveys.

“AMTIS selected Information Access Systems based on extensive evaluation, strong government customer base and responsive technical support,” said Chief Operating Officer Burt Williams. “This advanced capture solution will provide a rapid ROI for automating the time-consuming collection and manual processing of this business critical information.”

AMTIS will use several integrated software and hardware solutions to support and streamline this paper intensive workflow, making it more accurate and efficient. These solutions include Datacap’s award winning Taskmaster capture software utilizing OMR (check box data), ICR (handprint data), and OCR (machine printed data) technologies with Fujitsu document scanners which upload the hardcopy documents to electronic format.

“IAS continues to see increasing demands in simplifying how organizations capture and access document information used in key business processes,” said David Godiksen, President of Information Access Systems. “We look forward to our continuing relationship with AMTIS and supporting our joint commitment to delivering innovative solutions and services to our customers.”

About Information Access Systems, Inc.
